

## COFFEE

Coffee was introduced into Vietnam by French colonists in the late 19th century. Vietnam quickly became a strong exporter of coffee with many plantations in the central highlands. The beverage was adopted with regional variations. Because of limitations on the availability of fresh milk, the French and Vietnamese began to use sweetened condensed milk with dark roast coffee.

## TEA

With the history of planting tea for over 2000 years, Vietnam is one of the largest and oldest tea-producing countries in the world. Although the history of Vietnamese tea has not been as well recorded as that of the Chinese or Japanese. Tea drinking occupies an essential role in Vietnamese culture, both in the past and in the present. Join us on a trip to the prolific world of traditional tea.
